DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 18 September 2006 has been entered.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1-10, 12, 14, 22, 23, 27, 28, 32-37, 46 and 47 are allowed.

Independent claims 1, 5, 10, 22 and 23 have all been amended to include the limitation "analyzing the selected string of character information at an application level to determine if non-numeric characters are included in the selected string of character information." This limitation is not taught by the prior art. In contrast, the use of Hayes compatible modems and corresponding ATAPI protocol results in operating system or driver-level analysis and not application level analysis to determine if a string of characters includes non-numeric characters. Thus, claims 1, 5, 10, 22 and 23 are allowable over the cited prior art.

Art Unit: 2615

Claims 2-4, 6-9, 12, 14, 27, 28, 32-37, 46 and 47 depend variously from the aforementioned independent claims, and thus, are allowable over the cited prior art for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
